Professional Summary

Results-driven Full Stack Developer with 5+ years of experience building scalable web applications and cloud-based services. Skilled in frontend and backend development, REST APIs, database optimization, and CI/CD workflows. Passionate about clean architecture, performance optimization, and delivering exceptional user experiences.

Technical Skills

Frontend	React, Next.js, TypeScript, Tailwind CSS
Backend	Node.js, Express.js, Python, Django
Databases	PostgreSQL, MongoDB, Redis
Cloud & DevOps	AWS, Docker, Kubernetes, GitHub Actions
Tools	Git, Jira, Postman, Figma

Professional Experience

Senior Full Stack Developer — TechNova Solutions (2022 – Present)

- Developed scalable SaaS applications using React, Node.js, and PostgreSQL.
- Improved API performance by 35% through query optimization and caching strategies.
- Led migration to AWS cloud infrastructure with Docker-based deployments.
- Mentored junior developers and conducted code reviews to improve code quality.

Full Stack Developer — PixelCraft Labs (2019 – 2022)

- Built responsive web applications with React and Django REST Framework.
- Integrated third-party payment gateways and authentication systems.
- Collaborated with UI/UX designers to enhance accessibility and responsiveness.
- Implemented automated CI/CD pipelines using GitHub Actions.

Projects

E-Commerce Platform

Built a full-featured online marketplace with React, Node.js, Stripe integration, and MongoDB.

Real-Time Chat Application

Created a WebSocket-powered messaging platform with authentication and group chat support.

Education

Bachelor of Science in Computer Science

University of California, Berkeley — 2018

Certifications

- AWS Certified Developer – Associate
- Meta Front-End Developer Professional Certificate
